Game Reviews:

"Stupid Cow" A fun, quirky, rambunctious game that will introduce you to the humor and endearing characters found in the series. This is more of an interactive series with more of an emphasis on puzzles, rather than hidden objects and other tasks that might not be as fun.

"Stella" An easy to find, easy to enjoy game that will make you think about your place in the world and what you want your life to be about. It is something you can take part in while you are relaxing on the couch, making it great for any family that plays this game together.

"The Little Elf and the Shiny Ring" This is another easy, fun game that will have you looking around for treasures and shiny things, but this game doesn't take itself too seriously, making it a good game for all age groups.

"Cat's-Eye" This game has some excellent humor and the story is well developed. You play as a diminutive cat by the name of Cat's-Eye, and you have to help him navigate a variety of

situations and gameplay situations. The characters are well developed and interesting. "Brittany and the Buck" Very enjoyable game that showcases some of the talent that Pixar has to offer. Their sense of style and ability to tell a story through characters and their environments
